## PinnacleLink™ Mobile Classroom

### Fully functional mobile computer lab on wheels

Designed to move freely from room to room, the PinnacleLink Mobile Classroom obsoletes the need for costly LAN infrastructure renovations, while bringing the computer lab to the student. The Mobile Classroom can overcome physical obstacles like brick walls, and solve many of the problems associated with aging buildings like asbestos.

### Never before has the implementation of a computer lab been so easy!

The Mobile Classroom has room for 24 notebook computers of your choice and their respective charging equipment, a full sized laser printer, and a UPS battery back-up system (36 notebook model also available). The Mobile Classroom also contains the PinnacleLink Access Point, allowing the student complete wireless freedom within the classroom while maintaining a network connection ... at full Ethernet speeds of 10Mbps!

The notebook computers can be equipped with the PinnacleLink PCMCIA wireless adapter card, giving the notebook computer a 11 Mbps wireless link to the PinnacleLink Access Point which is located within the mobile cabinet. The Access Point is then connected to
